---

## SUMMARY

---

Systems builder with 27+ years of software engineering, architecture, and technology leadership experience, spanning web engineering, enterprise digital platforms, cloud/integration architecture, and — since 2025 — AI-first SaaS founding. Currently leads product and technology as CPTO at ServiceBuddy and manages venture and equity interests as Founder, CEO & MD of Stealth (WIP), following a CTO role at Cognosic building an AI-assisted SaaS platform for higher education. Combines hands-on architecture with executive leadership — having led engineering organizations of 50+ people and multi-million-dollar technology initiatives — on one repeating loop: build, learn, share, repeat.

## CORE COMPETENCIES

---

**AI & Product Innovation** — AI-first product development, Azure OpenAI, Azure AI Search, RAG, voice assistants, prompt engineering and evaluation, MCP clients, external tool integration, n8n orchestration, Neo4j knowledge graphs, AI-assisted engineering.

**Architecture & Platforms** — Multi-tenant SaaS architecture, API-first design, cloud-native systems, Azure integration services (Functions, Event Grid, Service Bus, API Management, Logic Apps), platform modernization, full-stack development (MERN, .NET).

**Leadership & Strategy** — Founder CTO leadership, startup product development, technology vision and roadmaps, engineering leadership of 50+ person organizations, stakeholder management, business-outcome-oriented delivery.

## TECHNOLOGY STACK

---

**AI & Intelligent Systems** — Azure OpenAI, Azure AI Search, RAG, Prompt Engineering, Prompt Evaluation, MCP Clients, Voice Assistants, Neo4j, n8n. *Currently learning: LangSmith, Terraform, the wider OpenAI ecosystem.*

**Cloud & Integration** — Microsoft Azure, Azure Functions, Event Grid, Service Bus, API Management, Logic Apps, Azure Integration Services, Terraform, Docker, GitHub Actions, CI/CD.

**Application Development** — Node.js, TypeScript, JavaScript, React, React Native, Flutter, Express, GraphQL, REST APIs.

**Data** — MongoDB, PostgreSQL, Neo4j.

## PROFESSIONAL EXPERIENCE

---

### **Founder, CEO & Managing Director — Stealth (WIP)**

Jan 2026 — Present

*Oslo, Norway · concurrent with ServiceBuddy below*

Privately held holding and venture entity managing long-term equity/ESOP interests, incubating early-stage product and platform initiatives, and executing selective high-impact technology and architecture engagements — emphasizing long-term value creation over short-term consulting. Building offshore tech capabilities with a set of offshore partners.

### **CPTO (Chief Product and Technology Officer) — ServiceBuddy**

Jan 2026 — Present

*Oslo, Norway · concurrent with Stealth (WIP) above*

Leading Product and Technology end-to-end for a next-generation services marketplace launching in Norway and designed to scale globally. Built a scalable, cloud-native platform (Supabase, React, Node.js, Vercel), with mobile underway in React Native (Expo) within a Turborepo architecture. Embedding AI into the core experience through intelligent job-to-provider matching, moving from POC to market toward an AI-first platform.

### **Chief Technology Officer — Cognosic**

Oct 2025 — Mar 2026

*Bergen, Norway · 6 months*

Led technology, product, and architecture strategy for an AI-assisted SaaS platform enabling universities to design, assess, and optimize curricula. Oversaw AI integration (OpenAI API), full-stack and mobile development (Flutter/Dart, Apollo GraphQL), and cloud/data infrastructure (GCP, Neo4j). Combined hands-on engineering with strategic leadership in a lean startup environment.

### **Chief Technology Officer — Leasi**

Oct 2023 — Sep 2025

*Norway*

Owned technology direction and architecture across frontend, backend, integrations, and cloud infrastructure for a multi-tenant SaaS platform (inventory, equipment rental, maintenance, and project/resource management). Led SaaS platform development using MERN and Microsoft Azure (+iPaaS); planned and executed migration from AppFarm.io to a MERN + Azure iPaaS stack. Applied AI (LLMs, agent workflows, MCP) to software engineering itself via GitHub Copilot/Codespaces, DataButton, and Cursor.

### **Integration Lead — Cegal (with concurrent multi-org technology consulting)**

May 2022 — Sep 2023

*Stavanger, Norway*

Led enterprise integration modernization, migrating Cegal from BizTalk 2016 to Azure iPaaS — documenting the "as is"/"to be" architecture, implementing DevOps (Azure DevOps + GitLab), and integrating 10+ enterprise applications (Salesforce, ServiceNow, Unit4, Visma Business) via REST/SOAP/SQL/CSV. Concurrently consulted for multiple organizations on digital transformation, including a CRM+ATS and billing/finance integration for a UK-based global organization and an IoT baggage-security product.

## Competentia — Global Digital Manager, then Global Digital Lead

Jul 2019 – Jan 2022

Stavanger, Norway (+ USA, Australia, MEA) · 2 years 7 months

Owned Competentia's global digital strategy across two roles: building Lean-Agile practices (SAFe) and PMI-aligned portfolio management as Global Digital Manager, then owning IT solutions, vendor management, and a digital platform build (Azure iPaaS, ELK, MongoDB, SharePoint/Teams/Office 365) as Global Digital Lead. Delivered a digital product for job search, referral, and employee self-service. Managed the IT handover through the Competentia/AirSwift merger.

## COMMUNITY & VOLUNTARY LEADERSHIP

---

### Multiple Companies

Oct 2025 – Present

Oslo, Norway · unpaid

Leadership across social, cultural, and entrepreneurship-focused organizations: Røde Kors Norge (Norwegian Red Cross), Sammen om en jobb (job-seeker mentoring), Pådriv (sustainable business ecosystems), and Indian for Growth (entrepreneurship within the Indian community in Norway).

## CAREER EVOLUTION

---

- **AI-Native SaaS & Founder CTO, 2025 – Present** — AI-first products, startup CTO/CPTO leadership, RAG, conversational AI, voice interfaces, workflow orchestration, knowledge graphs, AI-assisted engineering.
- **Modern SaaS, Cloud & Integration, 2019 – 2025** — Cloud-native SaaS, Azure architecture, API-first platforms, enterprise integration, platform modernization. Roles: Competentia, Cegal, Leasi (detailed above), and Digitas India (Delivery Manager / AVP Digital, 2015–2019 — presales, solution architecture, and digital product management across Nordic, FMCG, and automotive clients including Nissan and Senoko Energy).
- **Enterprise Digital Platforms, 2008 – 2018** — SharePoint, Adobe Experience Manager, Sitecore, enterprise web platforms. Roles: Synoverge Technologies (Senior Project Manager, 2015), MBD Group (GM IT, 2014–2015), Voith-Siemens (Business Solutions Manager, 2012–2014 — grew an offshore development center from 15 to 25 people and its managed revenue from €250K to €350K/year), HCL Technologies (Project Manager, 2010–2012 — built a team from 0 to 50 for a staff-augmentation program; accountable for projects sized at USD 3–4 million), NIIT Technologies (Project Lead, 2008–2010).
- **Web Engineering Foundations, 1997 – 2007** — .NET, PHP, JavaScript, early internet platforms. Roles: Binary Semantics (Senior Systems Analyst, 2006–2008), Dish TV (Technical Lead, 2006), GITI/GSPL CDAC Centre (Developer/Lead/PM, 2001–2005), and early training/development work at ICS, Aptech, and Arena (1997–2000).

## LEADERSHIP HIGHLIGHTS

---

- 27+ years of software engineering, architecture, and technology leadership experience.
- Led engineering organizations of 50+ professionals.
- Participated in multi-million-dollar technology initiatives.
- Hands-on technical leader — architecture-focused, business-outcome-oriented.
- Experienced across four technology eras: web, enterprise platforms, cloud SaaS, and AI-native products.
- Active founder building AI-first SaaS products and managing venture/equity interests from idea through MVP.

## EDUCATION

---

- **IGNOU** — BA (Psychology) — enrolled 2018, *in progress*
- **Indian Institute of Management, Lucknow** — Executive Education (EMP), Sales and Marketing (2014 – 2015)
- **ICFAI** — PG Advance Diploma in Business Finance (2011 – 2013)
- **Sikkim Manipal University** — MSc (IT), Information Technology (2007 – 2009)
- **CDAC** — PGDCA, Computer Science (2001)
- **V.B.S Purvanchal University** — B.Sc., Mathematics and Physics (1994 – 1997)
- **Aptech** — Advance Diploma in Software Engineering (1997)

## CERTIFICATIONS

---

**Microsoft** — Azure Fundamentals (AZ-900), Azure Data Fundamentals (DP-900), Azure AI Fundamentals (AI-900), Power Platform Fundamentals (PL-900), DevOps with GitHub, Modernize .NET Apps, Azure Synapse Analytics (all 2021).

**Professional** — TOGAF (2015), SAFe (2020), PMI-ACP (2016), COBIT (2016), CSM (2015, Scrum Alliance), ITIL V3 (2012).

*Continuous learning: MOOCs from Wharton, Johns Hopkins, University of Michigan, University of Pennsylvania, and UC San Diego (2013–2019) in operations management, competitive strategy, finance, marketing, and data science; ongoing technical trainings across Azure, AWS, and full-stack development.*

## PROFESSIONAL AFFILIATIONS

---

Institute of Engineers (India) · Computer Society of India · ACM (India) · IEEE Computer Society · Project Management Institute · Scrum Alliance · IIBA · Linux Foundation, Open Source Initiative, Apache Foundation, Free Software Foundation, Mozilla Foundation.

## CURRENT FOCUS (2026–2030)

---

Building AI-first SaaS products and intelligent systems that combine LLM-powered experiences, RAG, agentic workflows, voice interfaces, knowledge graphs, AI-assisted engineering, and cloud-native platforms.

**Build. Learn. Share. Repeat.**
